SUMMARY

Remote React Developer with expertise in crafting responsive, accessible web applications using Next.js and TailwindCSS. Proficient in UI/UX design, authentication, and performance optimization.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, HTML5, CSS3

Libraries & Frameworks: React, Next.js, TailwindCSS, Redux, Shadcn

Tools & Platforms: GitHub, Vercel, Prisma, Figma

PROJECTS

Influence Infinity (Social Media Marketing Agency Website)
- Developed a multi-page Next.js app with responsive and visually striking UI using TailwindCSS.
- Integrated Framer motion for smooth animations and ensured cross-device usability.
- Utilized component-based architecture for reusability and maintainability.

Read Well (Online Bookstore)
- Built an online bookstore utilizing Google Books API to offer a vast selection of books for browsing and purchase.
- Designed a responsive front-end using Next.js and TailwindCSS.
- Implemented secure user authentication with NextAuth, supporting multiple login providers.
- Managed relational database schema using Prisma, ensuring data consistency across the site.

Personal Portfolio (lanskrobar.com)
- Designed and developed a personal portfolio using Next.js and TailwindCSS.
- Focused on creating a clean, responsive UI/UX to highlight work effectively across all devices.
- Integrated analytics tools to track visitor interactions and gain insights for continuous improvement.
- Optimized for performance and SEO, ensuring a smooth user experience and visibility.

ADDITIONAL SKILLS

- **Problem-Solving:** Identified and resolved technical challenges in projects, such as optimizing performance and debugging API integrations.
- **Self-Learning:** Independently researched and implemented new technologies, such as Prisma and NextAuth, to enhance project functionality.
- **Attention to Detail:** Focused on creating polished, user-friendly interfaces that ensure a seamless user experience.

EDUCATION: Computer Science, SERŠ Maribor - Highschool Diploma (2019-2023)
